

GENERAL BLENDING / TEMPERATURE CONTROL

VinFoil Mixer™

The world's most efficient
mixer for oak extraction

Gentle Blending in a Fraction of the Time

Vinfoil mixers unique blade design allows for gentle yet powerful blending, improving low rate and increasing tank turnover, thus ensuring uniform product consistency and temperature.

- Less turbulence / no shear
- Faster tank turnover
- Vastly improved flow rate compared with a transfer pump
- Uniform product consistency and temperature
- Overall reduction of costs associated with labor
- Easy adaption to automated cellars
- Virtually maintenance free

Call us at (707) 577-7826 to find out more about using the Vinfoil Mixer for Oak Extraction.
