

SOLIDS FEED TO CENTRIFUGES

VinFoil Mixer™

The world's most efficient
mixer for oak extraction

Uniform Blend for Consistent Solid Feed Rate

Vinfoil mixers ensure uniformity of suspended solids as feed, leading to better and more reliable performance from the centrifuge.

- Consistent solids feed rate
- More reliable performance of centrifuge
- Easily adapted to cellar automated control system

Call us at (707) 577-7826 to find out more about using the Vinfoil Mixer for Oak Extraction.
