

WHISKEY BLENDING

VinFoil Mixer™

The world's most efficient mixer for Whiskey Blending

Enhances production efficiency and quality

Vinfoil mixers offer production efficiency and quality through creating or accelerating motion and blending, mass transfer, heat transfer, and solid suspension, providing:

- Optimized sugar extraction
- Uniform yeast mixing
- Fast and accurate abv adjustment
- Maintaining homogeneity during storage
- No water / ethanol stratification
- No air introduction to tank during mixing

Call us at (707) 577-7826 to find out more about using the Vinfoil Mixer for Whiskey Blending.
